

Spray Tan Guidelines

BEFORE YOUR TAN

- If you plan on getting a pedicure, manicure, lash extensions, Botox, waxing or facials for your event, it must be 1-2 days prior and not after tan.
- Shave legs and underarms 1 day prior to your appointment.

DAY OF TAN

- No lotion, makeup or deodorant.
- Bring loose-fitting, dark clothing and flip flops to change into or you can wear them to your appointment.
- If it's raining, please bring long pants, rain jacket + umbrella.
- You may wear undergarments, a swimsuit, or go nude during the application process...whatever makes you feel most comfortable!

AFTER YOUR TAN

- Be aware of seatbelt/purse/bra/backpack straps as they may rub on the body during processing.
- Stay dry at least 4-8 hours post-tan....no sweat, no wet!
- Once you shower, you will notice a "bronzer" rinsing off...this is normal and does not affect your spray tan.
- When showering + while drying off, PAT the skin, do not rub.
- Avoid exfoliants to face + body, as this will "scrub off" your tan!
- Moisturize, moisturize, moisturize! We offer products in-studio to help extend the life of your tan.
- Hot tubs, pools, baths and extensive sweating will cause the tan to fade much faster or can "break down" the tan on parts of the body.
